Washington, D. C.

TV FILM CLIP LIBRARY Volume V November 1955

The Motion Picture Service of the U. S. Department of Agriculture offers a stock scene library service to land-grant colleges and other organizations and individuals interested in using agricultural motion picture footage in the production of films and television programs. Lists of stock scenes available will be published as material is added to the library.

It is suggested that these lists be kept in a ready reference file. The scenes are grouped under the title of the USDA subject for which they were photographed. Further cataloging or cross-indexing will be at the discretion of the user. Scenes should be ordered by scene numbers and descriptions, and in the length indicated. Double-perforated film stock will be furnished by the Motion Picture Service unless otherwise specified.

This volume also lists and describes scenes contained in certain edited film packages. Only black-and-white prints of these film packages, not individual scenes contained therein, are available for purchase at a reduced rate. These packages should be ordered by the production number and title or general description and in the total length indicated. Composite sound prints will be furnished if the package is a sound film. Prints of silent packages will be furnished on double-perforated stock unless otherwise specified.

A check or money order made out to the Office of Information, U. S. Department of Agriculture, must accompany each

order. Formal purchase orders will be accepted from Federal and State Government agencies. Orders should be submitted in duplicate and will usually be processed within a maximum of 10 working days.

The following price schedule will be in effect until further notice. These prices are based on costs of printing, processing, packaging, and mailing:

Scenes:

16mm black-and-white prints \$ 0.05 per ft.

MINIMUM ORDER \$ 5.00

If you have not already received Volumes I, II, III and IV of the TV Film Clip Library, copies may be obtained by writing to the Motion Picture Service, U. S. Department of Agriculture, Washington 25, D. C.

TV Film Package #1210-46 - HYBRID ONIONS

Lip-sync. Leo Geier interviewing Dr. Henry Jones at Beltsville, Maryland, on the latest in hybrid onion development.

Total footage - 186 ft. Order by full-length package only

- MS House Office Building presentation ceremony new hybrid onion - truck loaded with onions pulls up behind speaker.
- 2. LS Presentation ceremony.
- 3. MS Congressman carrying bag of onions.
- 4. LS Pan greenhouse at Beltsville, Md.
- 5. MS Interior onion greenhouse, Beltsville, Md. Leo Geier introduces Dr. Henry Jones. Dr. Jones talks about onions.
- 6. CU Leo Geier samples onion slice to show mildness.
- 7. MS Dr. Jones shows hybrid onion and parent onion.
- 8. CU Same as above.
- 9. MS Dr. Jones lays down onion picks up another hybrid onion.
- 10. CU Hybrid onion.
- 11. MS Dr. Jones displays still another onion.
- 12. MS Dr. Jones hands Leo Geier a bulb onion.
- 13. MS Different angle as Dr. Jones and Mr. Geier talk they move to onion plants.
- 14. MS Dr. Jones and Mr. Geier at onion plants.
- 15. CU Onion flower as Dr. Jones points out parts.
- 16. MS Same as above.
- 17. CU Dr. Jones at another onion plant.
- 18. MS Dr. Jones and Mr. Geier turn to many other plants growing in BG - Dr. Jones points out characteristics they move to another part of greenhouse.
- 19. MS Dr. Jones and Mr. Geier enter and walk to onion plants covered with fly screen. Dr. Jones picks up fly trap shows how trap is inserted into screen to allow flies to pollinate plants.
- 20. CU Fly screen as Dr. Jones ties it to keep flies around plant.
- 21. MS Mr. Geier thanks Dr. Jones for showing him the hybrid onions.

TV Film Package #1210-47 - AIRCRAFT AND AGRICULTURE

Silent film depicting use of aircraft for insect and forest fire control.

Total footage - 165 ft. Order by full-length package only

- MS Couple walking along New England street turn and point to sky.
- 2. LS C-47 airplane passes overhead spraying wooded area.
- 3. CU Gypsy moth caterpillar eating leaves.

- 4. MS Men in cranberry bog.
- 5. CU Gypsy moth caterpillar on basswood leaves.
- 6. MCU Same on willow leaves.
- 7. MS Defoliated trees.
- 8. LS C-47 being loaded with spray.
- 9. MCU Spray jets under wing of C-47.
- 10. MCU Dead caterpillars on forest floor.
- 11. ECU Grasshopper.
- 12. MS Grasshoppers on ground.
- 13. MCU Grasshopper eating leaf.
- 14. ECU Same as above.
- 15. MS Farmer walking through defoliated grain field.
- 16. CU Farmer's hand reaches to ground and picks up several heads of grain.
- 17. MS Single-engine airplane taxiing off.
- 18. MS Same passes overhead.
- 19. LS Same making spray run over field.
- 20. CU Dying grasshopper.
- 21. CU Smoldering and smoking log.
- 22. MS Burning woods.
- 23. MS Firefighters trudging up trail.
- 24. MS Same as above reverse angle.
- 25. MS Raging fire two firefighters walk into view.
- 26. MLS Ford trimotor airplane taking off.
- 27. MLS Trimotor airplane in flight.
- 28. CU Smokejumpers prepare to jump out interior.
- 29. ELS Down view fire burning.
- 30. MS Smokejumpers bailing out drift down.
- 31. LS Smokejumpers landing in woods.
- 32. MS Smokejumper dangling from tree.
- 33. MS Up view Ford trimotor plane passes over woods dropping supplies.
- 34. MS Smokejumpers retrieve supplies.
- 35. MS Smokejumpers putting out fire.

TV Film Package #1210-48 - HEALTHY STRAWBERRIES

Sound-on film showing USDA Agricultural Research scientists studying diseases and finding ways of developing better strawberries. Film also shows machine developed by the University of Maryland for commercial treatment of strawberry plants infested with nematodes.

Total footage - 195 ft. Order by full-length package only

- 1. CU Healthy strawberry plant.
- 2. ECU Strawberries on plants.
- 3. MS Scientist in greenhouse looking at strawberry plants picks one up.
- 4. MCU Scientist with plant.
- 5. MS Scientist puts down plant and walks to another part of greenhouse.
- 6. MS Scientist approaches flat of growing strawberries.

- 7. MS Pan flat of strawberries to scientist who picks up two plants.
- 8. CU Scientist holding plants one healthy, the other showing virus effects.
- 9. MLS Scientist puts down plants then pan to another scientist working.
- 10. MS Scientist preparing to graft virus and healthy plants together.
- ll. CU Scientist slits runner with razor blade.
- 12. MCU Scientist joins runners.
- 13. CU Same as graft is made.
- 14. MS Line of four plants one healthy, three diseased tilt down to plants grafted.
- 15. MS Scientist looking into hot-box where plants are given heat treatment to control virus.
- 16. MCU Same as above scientist then closes door, turns to camera.
- 17. CU Scientist picks up two plants that have been heattreated - one is dead.
- 18. CU Magnified still shot of aphid, the virus transmitter.
- 19. ECU Head of aphid showing long proboscis.
- 20. MS Interior scientist at microscope.
- 21. CU Same as above adjusts microscope.
- 22. MCU Scientist holding strawberry roots one plant shows nematode damage.
- 23. CU Same as above.
- 24. CU Damaged roots.
- 25. MLS Interior machine shop two scientists preparing strawberry plants for heat treatment.
- 26. CU Scientist packing plants in wire basket.
- 27. CU Basket of plants goes into tank of water for pre-heating.
- 28. MCU Same as above another scientist removes basket pans as it is put into heat treatment machine.
- 29. CU Heat treating machine in operation one basket of plants starts treatment cycle while another completes it.
- 30. CU Basket of plants slides into treating tank.
- 31. CU Healthy strawberry hanging on plant.

TV Film Package #1210-49 - THE MAGIC CHICKEN

Sound-on film showing the latest in chicken research at the USDA Agricultural Research Center, Beltsville, Md.

Total footage - 181 ft. Order by full-length package only

- 1. CU Dressed chicken chicken is turned to show meaty breast and thick plump drumstick.
- 2. CU Two chickens held in hand.
- 3. MLS Housewife feeding chickens.
- 4. MCU Same.
- 5. MS Interior Dr. C. W. Knox, Poultry Geneticist, at incubator inspecting eggs.

- Same Dr. Knox removes tray of eggs CU as tray is MCU 6. removed.
- Dr. Knox closes door and walks out of frame. 7. MS
- Reverse angle as Dr. Knox walks in and hands tray of eggs 8. MS to assistant who will sort them - Dr. Knox then turns and walks to another incubator.
- Chicks in incubator Dr. Knox removes tray. 9. CU
- 10. MS
- Dr. Knox carries tray of chicks to sorting table. Dr. Knox picks up two differently colored chicks. 11. MCU
- Chicks male chicks are white, females are reddish 12. CU (mother hen is Silver Cornish - rooster is New Hampshire Red).
- MCU Dr. Knox picks up two other chicks - these chicks are 13. still basically either white or red, although both are spotted.
- 14. MCU Dr. Knox picks up neutral colored chicken, showing dark wing feathers indicating female.
- 15. MS New Hampshire male.
- Silver Cornish female (combination of Hampshire male and 16. MS Cornish female produces chicks with sex color difference).
- Silver Cornish male New Hampshire female (combination 17. MS Cornish male and New Hampshire female produces all white chicks).
- 18. MS All white Beltsville broilers.
- Dressed New Hampshire chicken breast is measured and 19. CU drumstick size is pointed out - pan to dressed Cornish where same action is repeated - then pan to Beltsville broiler and same action (shot shows improvement in breeds).
- Live Beltsville broiler. 20. MS

TV Film Package #1210-50 - BEEF CATTLE PERFORMANCE TESTING

Sound-on film showing research being conducted by USDA at Front Royal, Virginia, on improvement of beef cattle.

Total footage - 230 ft. Order by full-length package only

- Hereford cattle being driven to water. 1. LS
- 2. MS Cattle near pond - pan rolling countryside at Front Royal, Va.
- 3. CU Sign "Beef Cattle Research Station" - zoom out and pan to grazing cattle - zoom in to MS of cattle.
- Pan Angus bulls in pen. 4. MS
- 5. MS Hereford bull.
- Shorthorn bull (one of the original herd). 6. MS
- 7. MS Hereford bull (original herd).
- Angus bull (original herd). 8. MS
- Angus cows and calves follow feed truck. 9. MLS
- 10. MCU Hereford calf.
- 11. MS Man holding new-born calf in field - pan to jeep as it drives up - jeep is especially equipped to make complete record of new-born calf.

- 12. MCU Mother cow watching.
- 13. MS Calf is weighed.
- 14. CU Calf is tagged and tattooed on ear.
- 15. MS Calf is placed in measuring pen on jeep.
- 16. MS Calf is measured.
- 17. MS Interior barn bull is fed.
- 18. MS Interior bull is led from stall to scales.
- 19. MS Door to scales is closed pan to scales.
- 20. CU Weight being recorded.
- 21. MS Shorthorn bulls are herded into pens (exterior).
- 22. MS Hereford heifers in feeding lots.
- 23. CU Angus heifer in feeding lot.
- 24. MS Interior office where data is recorded woman seated at desk is keeping record research scientist walks in and hands her information on new calves.
- 25. CU Record data in ledger.
- 26. MCU Horseman rides through Hereford herd.

TV Film Package #1210-51 - RESEARCH FOR BETTER LIVING

Sound-on film featuring Secretary Ezra T. Benson and outlining how research has improved food to the benefit of all.

Total footage - 131 ft. Order by full-length package only

- MCU Secretary Benson speaking.
- 2. MS Same.
- 3. MCU Same.
- 4. MS Same.
- 5. CU USDA booklet titled "More and Better Foods from Today's Pay Check."
- 6. MS Secretary Benson speaking.
